Work Experience

■ August 2020 - August 2024

Wentworth Institute of Technology

Studio Monitor

- Supported students in the design development process, providing guidance and feedback to promote expanded project development skills.
- Ensured students followed and adhered to prototype lab safety & security protocols.

■ January - April 2023

Wentworth Institute of Technology

UI/UX Development Coop

- Developed and conceptualized a comprehensive business framework for a diversity reporting website, including job boards and recruiting.
- Conducted in-depth user research to ideate and design an intuitive user interface for a mobile application, with an emphasis on human factors and fluid interaction.
- Led the development and design of the mobile app, ensuring user engagement, feedback loops, and reduction of user pain points.
- Created and collaborated to design multiple system frameworks, prototypes, storyboards, and conceptual designs of the deliverable.
- Worked closely with team members to ensure delivery of a quality project, meeting strategic goals and timelines

■ May 2022 - August 2023

Starbucks Coffee Company

Barista

- Prepared crafted beverages with efficiency
- Collaborated with team members to optimize workflow during peak hours, enhancing overall customer satisfaction.

Education

2020 - 2024
